OR

You can choose to allow your child to check-out ANY book in the library, including YA books.

One good resource for parents who are considering whether to allow their child to read a "YA" book is [www.common sense media.org](http://www.common sense media.org). Type the title of the book in the search bar and it will provide a "Parents Guide" to the content and themes of the book. Parents are also strongly encouraged to personally read the entire book in question & discuss the themes & ideas with his or her child. Please contact Mrs. Whitlock if you have any questions.
